

Life-OS Wellbeing Report

Your Personalized AI Digital Wellness Summary

Date	2026-07-31
Screen Time	9.2 Hours
Productivity Score	64/100
Most Used App	VS Code

Wellness Score : 64/100

Strengths

- You have spent a significant amount of time on coding, which is a valuable skill
- Your education screen time is notable, indicating a commitment to learning
- Your productivity score of 64% shows that you are somewhat effective in managing your time

Needs Attention

- Excessive screen time of 9.2 hours, which may negatively impact physical and mental health
- Social media usage of 120 minutes may be a distraction and decrease productivity
- The goal difference of 250 minutes suggests that you need to adjust your screen time to meet your goals

Action Plan

- Set a daily limit for social media and entertainment apps to minimize distractions
- Schedule regular breaks from screens to reduce eye strain and improve focus
- Review and adjust your daily goals to ensure they are realistic and achievable

■ Tomorrow's Challenge

To reduce your screen time by 30 minutes each day and allocate that time to physical activity or meditation to improve overall wellbeing
